

I pay for my monthly service to my personal vehicle of XM radio so that I can listen to whatever genre of music, talk radio, entertainment, news, weather, comedy I feel like at any given time. It is similar to my personal choice of what I want to watch on television, I can watch whatever channel I choose through my cable company that I have paid for. I spend quite a bit of my personal time in my vehicle, and I don't believe that the NAB should be able to restrict that.

Reject the NAB's petition 04-160!!!!
